

Magazine of Civil Engineering

scientific and applied edition

Technical requirements

Articles should be created in MS Word 2007–2013 (docx). Articles should be between 15000 and 30000 characters in length.

1. The type family is Arial; main type size is 10 and the additional one is 9.
2. All text including tables should be in portrait page orientation.
3. All **Figures** (charts, diagrams, line drawings, web pages/screenshots) and Plates (photographic images) should be submitted in the graph format (JPEG, TIFF, BMP) in separate files. All Figures should be of high quality, numbered consecutively and have its own title. Graphics may be supplied in color.
4. **Tables** should be typed and included as part of the manuscript. They should be numbered consecutively and have its own title. They should not be submitted as graphic elements.
5. **Formulas** should be made in MS Equation 3.0 or MathType and typed as part of the manuscript. All symbols should be explained after the formula.
6. Tabulations and page breaks are not allowed.
7. All **symbols and abbreviations** should be determined in the first place they are mentioned.
8. The preferred format for **headings and subheadings** are appropriate styles of MS Word. The hierarchy of headings should be clearly indicated.
